Front End Developer

Endra Dwi Jamaludin

https://www.linkedin.com/in/Endra DwiJamaludin
https://github.com/endradwi

I am a Frontend Developer with experience in building scalable, responsive, and user-friendly web applications. Proficient in modern frontend technologies such as React.js, Vue.js, JavaScript, and Tailwind CSS, I have a strong foundation in creating intuitive user interfaces and seamless user experiences. I am also skilled in integrating frontend applications with backend services and databases. With a passion for continuous learning and innovation, I am eager to contribute to dynamic teams and deliver high-quality solutions that meet both user and business needs.

Skills

- **Frontend Development**: React.js, Vue.Js, JavaScript/Typescript, HTML, CSS, Tailwind CSS
- **Framework :** NextJs, NuxtJs
- **Version Control**: Git
- **Backend Integration**: Node.js, Golang, RESTful APIs
- **Database**: PostgreSQL (basic knowledge for integration purposes)
- **Tools**: Docker (basic understanding for containerization)
- **Methodologies**: Agile, Scrum
- **Global State Management :** Redux, Jotai, Zustand, Pinia

Project Experiences

1. ejourney app   **Link Portofolio**
   - **Description:** A web-based application for LMS student, accessible via smartphone or PC browser.
   - **Technologies Used:** Nuxt.js, Next.Js, Tailwind CSS, Golang, PostgreSQL
   - **Role:** Frontend Developer
   - **Key Contributions:**
     - Developed the frontend using React.js and Tailwind CSS.
     - Ensured cross-browser compatibility and mobile responsiveness.
     - Collaborate with the dev lead, other developers, and the UI/UX team to achieve optimal design implementation.
     - Design the front-end application schema and develop an effective deployment strategy.
     - Participate in agile planning, time estimation, and task execution.
     - Contribute to research and development (R&D) and enhance individual and team knowledge.
     - Conduct testing, troubleshooting, and performance optimization to ensure application stability and security.
2. Praktek Bidan Isti App   **Link Portofolio**
   - **Description:** A web-based application for Patient registration at the clinic, accessible via smartphone or PC browser.
   - **Technologies Used:** Nuxtjs, Tailwind CSS, Golang, PostgreSQL
   - **Role:** Sole developer responsible for designing and implementing the frontend interface, ensuring responsiveness and user-friendly design.
   - **Key Contributions:**
     - Developed the frontend using React.js and Tailwind CSS.
     - Ensured cross-browser compatibility and mobile responsiveness.
     - Integrated the frontend with backend services for app

3. MyFilm Apps **Link Portofolio**
   - **Description:** A web-based application for booking cinema tickets, accessible via smartphone or PC browser.
   - **Technologies Used:** React.js, Tailwind CSS, Node.js, Golang, PostgreSQL
   - **Role:** Sole developer responsible for designing and implementing the frontend interface, ensuring responsiveness and user-friendly design.
   - **Key Contributions:**
     - Developed the frontend using React.js and Tailwind CSS.
     - Ensured cross-browser compatibility and mobile responsiveness.
     - Integrated the frontend with backend services for ticket booking functionality.

4. P-pay E-wallet **Link Portofolio**
   - **Description:** A web-based application for managing personal finances and transactions.
   - **Technologies Used:** React.js, Tailwind CSS, Node.js, Golang, PostgreSQL
   - **Role:** Frontend developer in a team project.
   - **Key Contributions:**
     - Designed and implemented the frontend interface with a focus on user experience and responsiveness.
     - Created detailed and responsive assets for mobile devices.
     - Integrated frontend with backend APIs for data fetching and transaction management.
     - Documented backend APIs using Swagger for better team collaboration.

Work Experiences

- **Frontend Developer, PT Primeskills Edukasi Indonesia**   **Mar 2025 - Jul 2025**

  - Develop, maintain, and enhance new features for web-based platforms.
  - Collaborate with the dev lead, other developers, and the UI/UX team to achieve optimal design implementation.
  - Design the front-end application schema and develop an effective deployment strategy.
  - Participate in agile planning, time estimation, and task execution.
  - Contribute to research and development (R&D) and enhance individual and team knowledge.
  - Conduct testing, troubleshooting, and performance optimization to ensure application stability and security.
  - Identify and implement the latest technologies to improve development efficiency, including the use of AI tools.

- **Voting Committee, KPUD Kabupaten bekasi**   **2023 - Jan 2025**

  - Create a simple application for quick counts at sub-district/village level using Excel.
  - Manage population data for election needs.
  - Assist in every stage of elections held by the KPUD.
  - Carrying out problem solving with the community in making elections at the sub-district/village level a success

- **Divisi Treasury, PT Bank Negara Indonesia (Persero) Tbk - Merdeka**   **Mar 2022 – Sep 2022**
  Campus certified internship

  - Improving the Website for the needs of compiling ALCO decisions in the Treasury Division.
  - Responsible for completing the required website and its database.
  - Update ALCO decisions on the website provided.
  - Assist in processing daily liquidity reports.

- **Game Developer, Agate Academy - Role Product Manager & Quality**   **Agu 2021 – Jan 2022**
  Assurance (Merdeka Campus Certified Independent Study)
  - Ensure that the game products created can compete in national and international markets.
  - Conduct market segmentation research for games that needs to be published.
  - Make presentations to the team on research obtained from trusted sources.
  - Provide input to the team with comparisons of competing games on the market with the same genre.
  - Conduct UX experiments on games that will be published and provide input from the experimental results

Education

- **Fullstack Web & Golang, Fazztrack**   **Agu 2024 - Jan 2025**
  - Non-formal education focused on improving programming skills for industry needs.
  - Projects: Developed a Film Ticket booking application (individual project) and an E-wallet application (team project).
  - Technologies: React.js, Tailwind CSS, Node.js, Golang, PostgreSQL.

- **Informatika,** Universitas Nusa Mandiri   **2018 – 2023**
  - Thesis Title: Design of a Web-Based AKUKAMU DECORATION Booking Information System Using the WATERFALL Method
  - Grade Point Average (GPA) : **3.21**

Additional Information

- Fast Learner: Quick to adapt to new technologies and frameworks.

- Team Player: Experienced in working in cross-functional teams with strong communication skills.

- Problem Solver: Skilled in identifying and resolving issues to deliver high-quality solutions.
